Background ➤➤

The Association of Southeast Asian Nations, or ASEAN, was established on 8 August 1967 in Bangkok, Thailand, with the signing of the ASEAN Declaration(Bangkok Declaration) by the Founding Fathers of ASEAN, namely Indonesia, Malaysia, Philippines, Singapore, Thailand, Brunei Darussalam, Viet Nam, Lao PDR, Myanmar, Cambodia, making up what is today the ten Member States of ASEAN. ASEAN is both the world's seventh-largest market and third-largest labor force, and has been projected to become the fourth largest economic bloc by 2030. The 50th Association of Southeast Asian Nations(ASEAN) Summit which runs from November 10th to 14th in Manila, gathers heads of state and government from the ten member countries and its dialogue partners, needs a leading global provider of innovative Professional Mobile Radio(PMR) solutions secured the ASEAN Summit and related meetings with smooth and reliable communications.

Challenges or Demands ➤➤

As the most important international events, there are different meetings take place in more than 20 cities in Philippines all year long. In each cities, the meeting venues are different, on the other hand, the security team and other support team need seamless radio communication with high voice quality.

Hytera Solution

Hytera , served the ASEAN Summit with an end-to-end two-way radio solution including the PD78X terminals and DMR Trunking Pro system. The reliable radio service is available in conference venues, airports, ferry ports, central business districts and main avenues throughout the entire ASEAN Summit. The Trunking Pro system is designed to offer complete mission critical radio services including recording, dispatching and NMS functions for a large number of users with high spectrum efficiency, wide coverage, flexible networking and high security. In addition, a dedicated project team was designated to secure the event.

Benefits of Hytera Solution

1. Seamless coverage in meeting venues
2. Reliable voice communication for mission critical
3. Flexible network: single site mode for meetings in temporary place, full functional trunking sites for meetings in main cities.
